The MiMedx Difference

INNOVATION

RESEARCH

MiMedx is a leading biopharmaceutical company developing and marketing regenerative and therapeutic biologics utilizing human placental tissue allografts with patent protected processes for multiple sectors of healthcare. "Innovations in Regenerative Medicine" is the framework behind our mission to provide physicians with products and tissues to help the body heal itself.

Today we are a leader in advanced wound care, spine and sports medicine with significant scientific, clinical, operational and commercialization expertise. We intend to leverage these capabilities to remain at the forefront of innovation in regenerative medicine and biopharmaceuticals.

SAFETY

Our Products

Investors

MiMedx is a high growth biopharmaceutical company that is unique, as we deliver strong financial performance that will allow us to fuel future growth. Since 2012, MiMedx has been profitable on an Adjusted EBITDA basis. This financial performance allows the company to make investments in areas that build sustainable competitive advantages in our targeted markets while avoiding the dilutive impacts of raising additional capital.
